

How Administrations work!

Harnessing Appropriate Technology : As the electricity goes off and the baby (1) begins to see ghosts (2 & 3) in the dark (4), it begins to bawl and kick in a cycling motion, so that by working two tiny pedals (5) attached to the crib (6), it unwittingly works the bicycle (7) on its stand, so that the little dynamo (8) begins to work, thereby lighting the lamp (9) on the front of the bicycle brightly (10).

* The device is guaranteed to solve the problem of infant unemployment in the country.
